FISHERY CODE COMPLETED.

English and American Commissioners
Conclude Their Labors.

Prof. E. E. Prince and Dr. David Starr Jordan, English and American commissioners on fisheries, who have been at Stanford University in conference for the past two weeks, have drawn up a code of laws to cover the fisheries within waters contiguous to the United States and Canada. The work of the commissioners has been done separately for months, each drawing up statutes, and the recent meeting was to combine their findings in one common code.

Prof. Prince will submit the statutes to the Canadian Parliament, while Mr. Jordan will present them to President Taft who will submit them to the Senate for ratification. The work, which is considered of vast importance, has been left entirely to the commissioners.

SEINER CAME HOME FOR
REPAIRS.

Sch. Mary E. Harty

Sprung Foremast and

Twisted Rudderhead.

Most of the Mackerel

Fleet Reported Off Bar-negat.

With her foremast sprung and her rudder head twisted, sch. Mary E. Harty, Capt. Reuben Cameron, ar-rived home this morning from her southern seining cruise. The craft had been in New York, but the dam-age could not be repaired there.

Capt. Cameron telegraphed his troubles, and even while the vessel was sailing home a new spar was be-ing made for her, so that she will lose but little time in stepping a new one.

Capt. Cameron will at once take on his Cape Shore fitting, but will go back south, as he figures that he will still have quite a little out there be-fore it is time to meet the fish on the Cape Shore. His report as to condi-tions and fish is the same as we have heard ever since the vessels went out south. It is simply a case of bad, very bad weather, and very few fish seen or reported.

Carried Away Bobstay.

Sch. Electric Flash, Capt. William Bissert, of the southern seining fleet, was in at New York Wednesday night for repairs, having carried away her bobstay during the heavy weather of the night before. She will fix up there and continue her trip.

Latest News from the Fleet.

Sch. Oriole of the southern sein-ing fleet, was at Stapleton, R. I., yesterday, with no fish. She reports the bulk of the seining fleet 20 miles east of Barnegat.

The lot of mackerel landed at Ful-ton Market, New York, counted out 630 fish, and they brought from 45 to 60 cents each. There were very few bloaters in the lot, and most of the fish weighing 1 3-4 pounds each. Yesterday it was snowing heavily in New York.

At Fulton Market, New York, this morning are three barrels of large mackerel from the traps on the New Jersey shore.

Sch. Olivia F. Hutchins was also there with 19,000 pounds of fresh pollock.

Schs. Chester A. Kennedy, Bernie and Bessie and Fanny Reed were also there.

Large Lobster Shipment.

Two more large shipments of live lobsters reached Boston yesterday from the Provinces. The D. A. R. line steamer Boston, from Yarmouth, N. S., had 1337 crates, and the Plant liner A. W. Perry, from Halifax, had 560 crates among her freight. On an av-erage of 125 lobsters to a crate, and worth 20 cents a pound, the entire shipment of 1947 crates is worth close to \$85,000, a record both in the num-ber received and the valuation.

Marine Mishaps.

Sch. Rose Dorothea at Boston yes-terday, reports loss of main gaff and mainmast torn.

Sch. Selma was at Halifax, N. S., Wednesday with some of her sails torn.

Bait.

The traps at Provincetown got from five to ten barrels each yesterday.
